"It's midnight do you know where your pallets are?

10 Year ZERO maintenance life span, environmentally sealed and designed for rugged sub-zero environments.

Accurate monitoring of assets with far reaching traceability and connectivity across multiple regions.

Cloud based data platform, with the option to securely connect to existing IT infrastructure or a fully featured bespoke system.

## Considerable savings by utilizing IoT

Source: Microsoft

- Aviation 1% fuel saving of \$30B over 15 years
- Freight transport 1% savings of \$27B over 15 years

## A step change in the supply chain

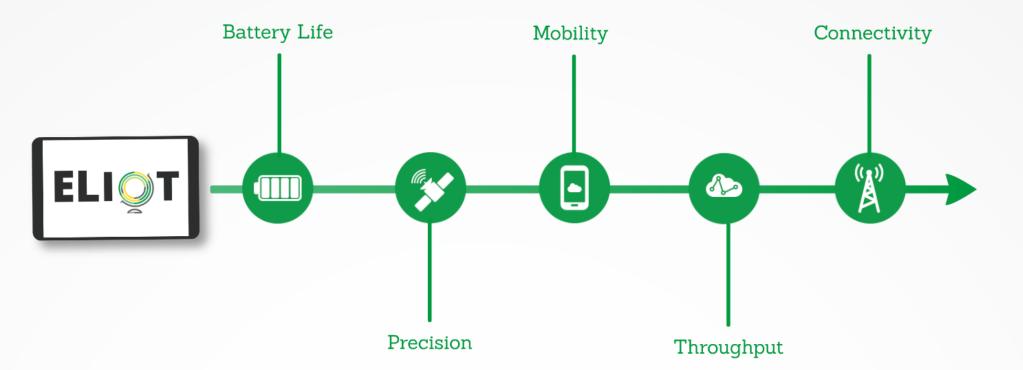

IoT will significantly alter how the supply chain operates, 50 billion devices by 2020.

"It's midnight do you know where your pallets are?

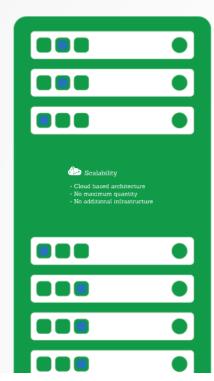

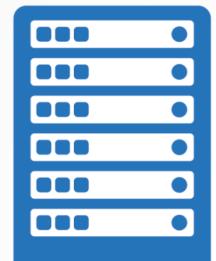

### **Scalability**

### **Security**

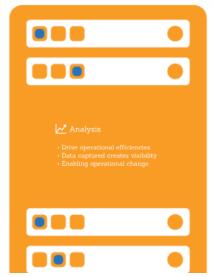

#### Gecurity

- Cloud based platform secures data
   Confidentiality of individual data
   Enhances physical asset security

### **Analysis**

## Scalability

- Cloud based architecture
- No maximum quantity
- No additional infrastructure

# **Security**

- Cloud based platform secures data
- · Confidentiality of individual data
- Enhances physical asset security

# Analysis

- Drive operational efficiencies
- Data captured creates visibility
- Enabling operational change
