

# Sustainable Materials Management System

## Mari: The Backbone of Sustainable Supply Chain Solutions

*At Marrad, we believe in simplifying sustainability. Our Sustainable Materials Management System (SMMS), Mari, is more than just a tool—it's the central hub that seamlessly connects all your internal teams and external partners, providing a single point of truth to manage surplus materials efficiently.*

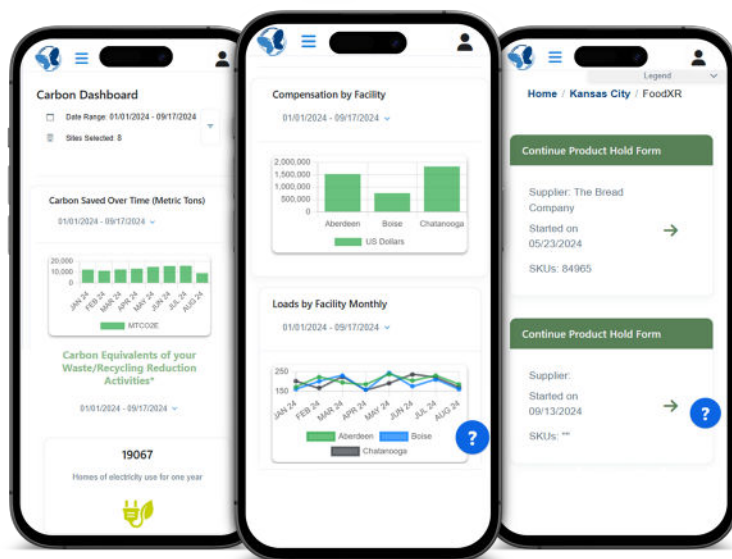

### What is Mari?

Mari is a purpose-built SMMS that integrates all stakeholders on one platform, giving you full control over materials at every stage. Whether you're managing recyclables, reusables, or operational waste, Mari is your solution for optimizing both environmental and financial outcomes. Mari turns the complex into the manageable, giving you the power to:

- **Improve Efficiency:** Standardize and automate workflows, reducing defects, and minimizing errors.
- **Reduce Costs:** Cut labor and associated administrative costs inherent in this manual, labor-intensive activity.
- **Enhance Sustainability:** Achieve measurable improvements in environmental performance, including lower carbon footprints and less waste to landfill.
- **Strengthen Partnerships:** Diversion partners and carriers trust Mari for real-time updates and communication, ensuring smoother, friction-free operations.

### FAST, EASY IMPLEMENTATION

- **Plug-and-Play Setup:** No complex integration.
- **Rapid Onboarding:** Train in 30 minutes or less.

### KEY FEATURES

- **Access from Anywhere:** Use Mari on mobile, desktop, or kiosk to stay in control wherever you are.
- **Simple Interface:** A user-friendly, intuitive platform—no need for extensive training.
- **Automated Workflows:** Reduce manual errors and associated rework.
- **Real-Time, Actionable Insights:** Get up-to-the-minute data on your materials, enhancing transparency and decision-making.
- **24/7 Whole Network Visibility:** From stores to DCs to carriers and diversion partners, gain comprehensive oversight of your entire supply chain.

### PROVEN RESULTS

A national retailer using Mari saw a 12% reduction in asset shrinkage and **saved over \$1.5 million** annually through improved tracking and automation.

### TAKE CONTROL OF YOUR SURPLUS MATERIALS

Mari makes managing surplus materials simple, efficient, and cost-effective. Are you ready to streamline your processes and maximize your sustainability efforts? Reach out to us today at [Contact@Marrad.com](mailto:Contact@Marrad.com)
