

Protective Lining Corporation

Standard Film Products

We offer a variety of plastic products for all your industrial needs.

Industrial Gaylord and Tote Bin Liners

Large sized gusseted bags are used to line containers, gaylords, boxes, tote bins and drums. Good for protecting products that are work in progress, or are being packaged for shipment.

Available in all sizes, thicknesses and colors.

Pallet Covers

Plastic covers are available for shrink and non-shrink applications, offering protection from outdoor storage, transportation, in plant production and other elements. Covers are an economical way to protect any finished product.

Available in all sizes, thicknesses and colors.

Industrial Bags & Liners

We manufacture various types of industrial plastic bags using LDPE, LLDPE, and other additives to meet your specifications and requirements. Mil thicknesses vary from .001 to .012. Flat or gusseted bags, tubing, sheeting and other film products are our specialty.

Available in all sizes, thicknesses and colors.

Furniture, Mattress & Industrial Covers

Poly covers protect from exposure to grease and dirt while in storage or transportation. All covers are perforated on rolls for easy tear-off. These poly covers can be used for furniture, mattress, appliance, automotive, and other (shrink & non-shrink) equipment applications.

Available in all sizes, thicknesses and colors.
