

# Protective Lining Corporation

## Elastic Drum Covers and Top Sheets

*The practical and inexpensive way to protect products from outside elements.*

### Elastic Dust Covers

*Tight fitting elastic dust covers protect in plant or bulk packaged products from outside elements such as dust, grease and water that might cause contamination. We use a 4-mil LDPE film. The elastic band is long lasting.*

*Good for applications such as: food, chemical, pharmaceutical.*

*Available in other custom sizes and thicknesses. Standard sizes are 5, 30 and 55 gallon.*

### Square & Round Top Sheets

*These products are converted to fit over any pail or drum. Square sheets are used primarily for open head drums when packaging and processing in a plant. Round shaped sheets are used for added protection when covering products with a lid.*

*Good for all industrial applications. Available in other custom sizes and thicknesses. Standard sizes are 5, 30 and 55 gallon.*
